Challenges

Manual testing led to inefficiencies, slow-release cycles, and an inability to test end-to-end customer journeys effectively.

Solution

Implemented Leapwork's automated testing platform across Dynamics 365, the integration layer, and 3rd party retail applications.

Results

- Automated all priority test scenarios for monthly releases within 90 days
- Reduced manual testing efforts by 80-90%
- Increased checkout speed by 20%
- Accelerated development velocity, allowing for 175% more enhancements per release

Conclusion

Leapwork equips retail businesses with the tools they need to stay ahead in a competitive market. Transform your QA processes, reduce operational costs, and enhance your customer experience with Leapwork today.
